Crossbred Bull - 6

SIRE: Hannibal  
DAM: Dart/Epinal  
ID: 6  
BD: 3/5/2009

BW: 80 • TH/PHA Clean by pedigree

In my opinion this bull could make absolutely awesome sought after females. To have a clean pedigree you won’t find one any hairier, softer or better looking.

Since our first sale in 2008, we have been overwhelmed with the success stories from breeders who purchased females on last year’s sale. When we created this sale, it was our goal to offer a set of females that will generate dollars in the pasture and the success of their prodigy will generate champion pictures to fill your walls. Each of the consignors have brought an outstanding set of bred heifers, bred cows, and a select group of yearling heifers. We are serious about raising the bar with this year’s set of bred females. If you are as serious as we are, we will see you in the seats in Dunlap on Saturday, December 12 at 5:00p.m.

**Crossbred Heifer - 1**

**Lot 7**

| SIRE: Alias | DAM: Full Flush x Witch Doctor |
| ID: 1 | BD: 4/1/2009 |

This show heifer is Royal bred. She is super flat muscled, deep bodied, flat shouldered, and long necked. She has awesome soundness and great hair. Have fun showing her all year long before making a donor out of her.

**Crossbred Heifer - 3**

**Lot 8**

| SIRE: Dr. Who | DAM: Rockstar x Full Throttle |
| ID: 3 | BD: 4/20/2009 |

This is a special heifer calf that needs your attention. She is one of the most attractive fronted, deepest bodied Dr. Who’s we have seen. She has extra balance and is super easy to look at from every angle. This heifer will be extremely competitive in the show ring as well as valuable in the donor pen.

This is one of the crowd favorites and rightfully so. This Full Flush descendent is a very powerful female who is stout enough to make any bull famous. I think her Ali calf, whether it be bull or heifer, could be an outstanding prospect in anybody’s pasture sale in 2010. This female will work great in anyone’s program and is the caliber of female who is worthy of multiplying genetics out of her when comparably mated to the right bull.

SIRE: Old School  DAM: Heat Seeker son x Draft Pick
ID: 803  BD: Spring 2008

Due 3/6/2010 to Grizzly

This is a top female in the offering and powerhouse Angus sired bred heifer. This Angus x Maine female is extra long, clean through her front and huge ribbed. She comes from the Lusk herd and is out of one of their top producing cows who we will hear more about in the years to come as she is well on her way to be a top donor for them. Make this maternal bred legend your donor!!

ID: 804  BD: Spring 2008

Due 2/20/2010 to Grizzly

Powerful and feminine best describes this low percent Maine female. Take note of the hip and hind leg in this heifer combined with her look and broodiness. She has female written all over her. She is super long necked with loads of quality. One of my favorites and sells bred to the ever so popular Grizzly. She could be one of the most exciting in the offering.

Due 2/20/2010 to Grizzly

I think this is one of the best females in the offering. I don't know exactly what to say but I know one thing: this female will do nothing but generate Ben Franklins for her new owner. This female's mass and power along with her bone and with her moderation make her a true breeding piece. This coupled with her pedigree leads me to believe she's a prime candidate for Heat Wave and Heat Wave sons. Not to mention, her mother was one of the high sellers in a past Exposure sale. I have great confidence in this female. She has donor written all over her. Help yourself! Seller is retaining the right to one flush at the seller's expense and buyer's convenience.

Crossbred Heifer - 811

Lot 76

Due to calve to Ali on April 7, 2010 but too close to call if AI'd or bull bred. PE'd to Ali x Full Flush son.

What a story life this young female has had. She's a Heat Wave out of the Voegele and England Who Made Who/Charolais donor 217. Yes, that's right. She's a flushmate to the steers that brought $45,000; $36,000; $22,000; $15,000 and $12,500 in 2008 pasture sales. And, not to mention her $20,000 2007 calf who went on to win the Belt Buckle Bonanza in 2008. I think this female has a very bright future in any operation. She's likely safe to Ali and that mating needs no introduction to the business. This female, with all this, leads me to believe that she will do nothing but generate green backs for your pocketbook and purple banners for your walls.

This is a beautiful stripe faced heifer sired by Doc. If you were at the sale last year, the Doc females were in high demand and will be this year and in years to come. She possesses the maternal excellence that has made these Angus sired cattle so famous and valuable. She is perfect from the profile. She is long and choke necked and extremely soft and bold in her rib. She has proven bulls in her pedigree to back her up like Full Flush and Meyer 734. With this, she should be a very influential donor in anyone’s pasture. And she sells bred to the very popular Ali.

The very colorful female was a little greener the day we took pictures, but she might be the best one when the smoke clears. A female that is gorgeous from the side and who’s pedigree encompasses several great bulls. I believe this female’s best days are ahead of her. A heifer calf from this mating could be very exciting and pay for her in the first year. You can’t go wrong with a female like this. She’ll make a sound, productive cow that will work to many popular AI sires.
